6. Side effects.
7. Storage and disposal of Axcel Sildenafil-100mg Tablet.
8. Product description.
9. Manufacturer and Product Registration Holder.

## WHAT AXCEL SILDENAFIL-100MG TABLET IS USED FOR

Axcel Sildenafil-100mg Tablet is used as an oral therapy for erectile dysfunction (inability to achieve or maintain an erection of the penis during sexual activity).

## HOW AXCEL SILDENAFIL-100MG TABLET WORK

Sildenafil helps to improve the blood flow in the penis following sexual stimulation, and this helps to maintain an erection.

## BEFORE YOU USE AXCEL SILDENAFIL-100MG TABLET

### When you must not use it

Do not take Axcel Sildenafil-100mg Tablet if:

- You are allergic or hypersensitive to any component of the tablet.
- It is not prescribed by a qualified doctor.

### Before you start to use it

Tell your doctor if:

- You have impaired kidney or liver functions.
- You are taking any other medicines.

### Taking other medicines

You should tell your doctor if you are taking any medicine as it may interact with your Axcel Sildenafil-100mg Tablet.

## HOW TO USE AXCEL SILDENAFIL-100MG TABLET

### How much to use

This tablet is intended for oral administration only.

### Use in adults:

For most patients, the recommended dose is 50mg, taken as needed. Based on effectiveness and toleration, the dose may be increased to a maximum recommended dose of 100mg or decreased to 25mg. The maximum recommended daily dose is 100mg. The maximum recommended dosing frequency is once a day.

### Use in patients with impaired kidney function:

Dosage adjustments are not required in patients with mild to moderate kidney impairment. Since sildenafil clearance is reduced in patients with severe kidney impairment, a 25mg dose should be considered.

### Use in patients with impaired liver function:

Since sildenafil clearance is reduced in patients with liver impairment, a 25mg dose should be considered.

### Use in patients using other medications:

Follow the recommendations and advices from your doctor.

### Use in children

Sildenafil is not indicated for use in children (<18 years old).

### Use in elderly men

Dosage adjustments are not required in elderly patients.

### When to use it

Axcel Sildenafil-100mg Tablet needs to be taken approximately 1 hour before sexual activity. It is more important to make sure that this Axcel Sildenafil-100mg Tablet is prescribed by qualified doctor.

### How long to use it

- Follow recommendations and advices from your doctor.

### If you forget to use it

- Do not double up the dosage as Axcel Sildenafil-100mg Tablet may give you unacceptable side effects.

### If you use too much (overdose)

You must inform your doctor immediately if you have taken too much Axcel Sildenafil-100mg Tablet.

## WHILE YOU ARE USING IT

### Things you must do

- Discuss with your doctor the dos' and don'ts' while taking this medicine.
- Tell your doctor if unexpectedly you need to take any other medicines.
- Take the Axcel Sildenafil-100mg Tablet according to the recommended dosage.
- Tell your doctor if you experience any side effects that are not listed in this leaflet.

### Things you must not do

- Do not take your medicine more than the suggested frequency in a day.
- Do not over dosage the medicine during any single consumption.

### Things to be careful of

- Avoid prolonged use with high dosage.
- Avoid use in children under 18 years old.
