1 bag

Intravenous use after reconstitution.

Thiotepa

Powder and solvent for solution for infusion

TEPADINA® 400 mg

TEPADINA® 400 mg

Powder and solvent for solution for infusion

Thiotepa

Intravenous use after reconstitution.

CYTOTOXIC

One bag contains 400 mg Thiotepa and 400 mL solvent

Excipients:

Solvent: sodium chloride and water for injections.

Read the package leaflet before use for further instructions and recommended dose.

Activate seal and gently mix powder and solvent.

After reconstitution with the solvent, each mL of solution contains 1 mg of Thiotepa.

After activation of the bag and reconstitution: See the leaflet for further information.

Store and transport refrigerated (2°C-8°C). Do not freeze.

Keep the bag in the aluminum wrapper in order to protect from activation.

Keep medicine out of reach of children/Jauhi daripada kanak-kanak/Controlled Medicine/Ubat Terkawal.

Any unused product or waste material should be disposed of in accordance with local requirements.
