What Biotase Chewable Tablet is used for

Biotase Chewable Tablet is used to help relieve indigestion and stomach problems such as bloating, burping, gas, stomach discomfort, or feeling too full.

How Biotase Chewable Tablet works

Biotase Chewable Tablet contains three digestive enzymes (biodiastase, lipase and newlase) that help your body break down carbohydrates, fats and proteins more efficiently. By improving overall digestion, it helps relieve indigestion, bloating, gas, belching and the feeling of fullness after meals.

Before you use Biotase Chewable Tablet

- When you must not use it
Do not take this medicine if:
 - you are allergic to biodiastase, lipase, newlase or any other ingredients of this medicine (listed in Product Description)
- Before you start to use it
Check with your doctor or pharmacist before taking Biotase Chewable Tablet if you have any other health related problems.

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Biotase Chewable Tablet

Follow all directions given to you by your doctor and pharmacist carefully. They may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

- How much to use

Adult and children more than 12 years of age: 2 to 3 tablets to be chewed three times daily

- When to use it

Take three times daily, after meal.

- How long to use it

Take this medicine for the duration that your doctor recommends.

- If you forget to use it

Take the missed dose as soon as you remember. If it is almost time for your next dose, do not take a double dose to make up for the missed dose, unless advised by your health care provider. Do not take 2 doses at once.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you or anyone else may have used too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

Taking too much of this medicine may cause loose stools or diarrhea, but it will not cause serious effects to the rest of the body.

While you are using Biotase Chewable Tablet

- Things you must do

Use your medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating you that you are using Biotase Chewable Tablet.

Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give Biotase Chewable Tablet to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

If you develop any signs of an allergic reaction, stop taking this medicine and seek appropriate treatment.

Side effects

Like all medicines, Biotase Chewable Tablet can cause side effects, although not everybody gets them.

Possible side effects are nausea, abdominal cramps, and/or diarrhea in certain patients, especially when taken in high doses.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of Biotase Chewable Tablet

- Storage

Keep out of the reach and sight of children

Store below 30°C, protect from light and moisture.

- Disposal

Biotase Chewable Tablet should be disposed when your doctor or pharmacist tells you to stop taking this tablet or it has passed the expiry date.

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.

Product Description

- What it looks like

A grayish brown round tablet

- Ingredients

- Active ingredient

- Biodiastase
- Lipase
- Newlase

- Inactive ingredients

- Potato Starch
- Lactose
- Carboxymethylcellulose Calcium
- Calcium carbonate
- Magnesium Trisilicate
- Mannitol
- Magnesium Aluminometasilicate
- Hydroxypropylcellulose
- Talc
- Sodium Saccharin
- Magnesium Stearate
- Milk Flavour Powder
- Coconut Flavour

- MAL number:
