What YSP ANTIFUNGAL CREAM is used for

YSP ANTIFUNGAL CREAM is used topically to treat skin infections caused by certain fungi and yeast.

How YSP ANTIFUNGAL CREAM works

YSP ANTIFUNGAL CREAM contains active ingredient miconazole, which is an antifungal. It works by inhibiting the growth of fungi and eventually kills them.

Before you use YSP ANTIFUNGAL CREAM

-When you must not use it

Do not use this medicine if:

- you are allergic to miconazole nitrate or any other ingredients of this medicine (listed in Product Description)

-Before you start to use it

Do not use this cream if your child is below 2 years old except under the advice and supervision of a doctor

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using this medicine.

-Taking other medicines

You must tell your doctor if you are:

- on warfarin therapy (blood thinning medication)
- taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use YSP ANTIFUNGAL CREAM

-How much to use

Apply sufficiently over the infected area.

-When to use it

Apply once or twice daily, depending on the type of infection or as directed by your doctor or pharmacist.

-How long to use it

Use YSP ANTIFUNGAL CREAM for the duration that the doctor recommends.

The treatment duration differ between 2 weeks to 1 month based on your type of fungal infection.

You may feel better within 2 to 3 days of starting treatment.

If irritation occurs, or no improvement is seen within 1 month of treatment, discontinue cream and consult a doctor or a pharmacist.

-If you forgot to use it

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have use too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention

While you are using it

-Things you must do

Use your medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating you that you are using YSP ANTIFUNGAL CREAM.

Tell your doctor immediately if you become pregnant while using this medication.

-Things you must not do

Do not stop using the medicine unless advised by your doctor.

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give YSP ANTIFUNGAL CREAM to anyone else, even if they have the same symptoms or condition as you.

-Things to be careful of

Treatment should be discontinued if irritation or sensitization develops with the use of this product.

Side effects

Like all medicines, YSP ANTIFUNGAL CREAM can cause side effects, although not everybody gets them.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

The side effects include:

- Skin irritation
- Burning sensation
- Itchiness
- Maceration (softening or breakdown of the skin)
- Allergic skin reaction
- Rarely, stomach cramp, hives, rash, headache

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring visiting the website npra.gov.my [Consumers→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and Disposal of YSP ANTIFUNGAL CREAM

Storage

Store below 30°C, protect from light & moisture.

Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.

Product description

-What it looks like

White color cream

-Ingredients
