

Item Code	: 218051 - 19 draft 19 Feb 2025
PM Code	: Case DEO 15g V1
Measurement(mm) ± 2mm	: 125(L) x 22(W) x 32(H)
Colour of Artwork	: P 383 C K
Source of Artwork	: MAC 3 / CC

Packing also available for 10G & 20G

This design is applicable for all pack sizes:

15g x 40

15g x 50

15g x 72

Item Code	: 203214 - 21 draft 19 Feb 25
PM Code	: L.P. - DEO 15g x 40
Measurement(mm) ± 2mm	: 174 (L) x 98 (W)
Colour of Artwork	: P. 384 C K
Source of Artwork	: MAC 3 / CC

For External Use Only

Keep in an airtight container. Store at temperature below 30°C. Protect from light and moisture. Keep medicine out of reach of children.
Jauhkan daripada kanak-kanak.

Dermosol® Cream

Topical Preparation

*Each Gram Contains:
Clobetasol Propionate 0.5mg*

*Preservatives:
Methyl Paraben 1mg
Propyl Paraben 0.5mg*

Indication:
Clobetasol Propionate is indicated for short term treatment of inflammatory and pruritic manifestations of moderate to severe corticosteroid responsive dermatoses, eg. psoriasis (excluding wide spread plaque psoriasis), recalcitrant eczemas, lichen planus, discoid lupus erythematosus and other conditions which do not respond satisfactorily to less active steroids.

Dosage and Administration:
Should be applied with gentle rubbing to the affected skin areas twice daily, once in the morning and once at night. Therapy should be discontinued when control is achieved. In the more responsive conditions, this may be within a few days. Rarely, gradual withdrawal of therapy or supplemental systemic adrenocorticoid therapy may be required to avoid symptoms of steroid withdrawal. Clobetasol Propionate is potent and therefore treatment must be limited to 14 days and amounts greater than 50g per week should not be used. If no improvement is seen, reassessment of the diagnosis or referral may be necessary. This cream is not to be used with occlusive dressings.
