What Macgel Tablet is used for

MACGEL TABLET acts as an antacid to relieve flatulence or stomach discomfort due to increased secretion of stomach acid, stomach ulcer, duodenal ulcer and gastric inflammation.

How Macgel Tablet works

Magnesium Hydroxide and Aluminium Hydroxide are antacids which neutralize the acid secretion in the stomach.

Dimethylpolysiloxane breaks the gas bubbles produced due to indigestion and relieves stomach bloating and discomfort.

Before you use Macgel Tablet

-When you must not use it

Do not use Macgel Tablet if you have allergy towards any ingredients in this tablet preparation.

Do not use this medicine after the expiry date or if the packaging is torn.

-Before you start to use it

Tell your doctor or pharmacist if you have any medical conditions

-Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

Macgel tablet should not be given in conjunction with tetracycline antibiotics.

How to use Macgel Tablet

-How much to use

Adults: Chew 2-4 tablets before swallowing or swallow whole.

-When to use it

Take 4 times daily after meals and at bedtime.

-How long to use it

Take Macgel Tablet for the duration as your doctor or pharmacist advised you to do so.

-If you forget to use it

If you missed a dose of Macgel Tablet, take it as soon as possible. If it is approaching time for the next dose, do not double the dose to make up for the forgotten dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have used too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention

Taking too much tablets may cause vomiting and purging.

While you are using Macgel Tablet

-Things you must do

Follow your doctor's or pharmacist's instruction when you are taking Macgel tablet.

-Things you must not do

Do not stop use this medicine or change the dosing regimen without instruction from your doctor. Do not give this medication to anyone else, even if they have the same condition as you.

-Things to be careful of

Tell your doctor if you are pregnant, plan to become pregnant or you are breast feeding.

Side effects

MACGEL TABLET is usually well tolerated. The side effects are soft feces, diarrhea, nausea, vomiting, gastric pain and eating disorder.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website <http://npra.gov.my/> (Consumer→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)).

Storage and disposal of Macgel Tablet

-Storage

Store below 30°C, protect from light and moisture.

Keep out of reach and sight of children.

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
