

NEUFLO TABLET

Description(s):

A salmon color round tablet, with the diameter of 8.5mm, one side impressed with a "Y" mark.

Ingredient(s):

Each tablet contains:

Lysozyme Chloride 90mg
(Potency)

Action(s):

1. Lysozyme is a mucopolysaccharidase which is active against Gram-positive bacteria possibly by transforming the insoluble polysaccharides of the cell wall to soluble mucopeptides. It is also active against some viruses and some Gram-negative bacteria.
2. Lysozyme has been claimed to enhance the activity of some antimicrobial preparations when given concomitantly.
3. Lysozyme catalyses the hydrolysis of β -1, 4-glycoside link of N-acetylneuraminic residues in sialic acids. These substances occur in the cell walls of many bacteria.
4. Lysozyme occurs in lacrimal secretions, mucus secretions in the nasal passages, saliva and gastric secretions and serves to protect against bacterial attack.
5. The metabolism of lysozyme in the organism is rather complex and wrong belief still exist about it. Because of

0). It is filtered a:

lysozyme's low molecular weight (MW=15000) glomerular level.
