What KASTIPRON TABLET is used for
KASTIPRON TABLET is used to help thinning phlegm and thus facilitate the clearance of phlegm from the airways.

How KASTIPRON TABLET works

KASTIPRON TABLET has properties of regulating and thinning the mucus. It acts directly to the mucus to reduce the thickness of the secretions. This helps to cough out the phlegm.

Before you use KASTIPRON TABLET

- When you must not use it

If you are allergic towards Carbocisteine or other ingredients listed at the end of the leaflet.

- Before you start to use it

Tell your doctor or pharmacist if you have ulcer in your stomach or small intestine, pregnant or breast feeding.

- Taking other medicines

Seek for your doctor or pharmacist advice if you intended to use KASTIPRON TABLET together with other medication. Besides, you must also inform them about all the medicines you are taking, including those without a prescription.

How to use KASTIPRON TABLET

- How much to use

Adult: 2 tablets 3 times / day.

Children (6-12 years): 1 tablet 2 times/day

- When to use it

KASTIPRON TABLET should be taken after meal.

- How long to use it

KASTIPRON TABLET should be taken as long as your doctor advised you to do so.

- If you forget to use it

If you miss a dose of KASTIPRON TABLET and you are taking it regularly, take it as soon as possible. If it is approaching time for the next dose, do not double the dose to make up for the forgotten dose, unless advised by your health care provider. Do not take 2 doses at once.

- If you use too much (overdose)

Seek for medical attention.

While you are using it

- Things you must do

Follow your doctor's instruction when you are taking KASTIPRON TABLET.

- Things you must not do

Do not stop taking this medicine or change the dosing regimen without instruction from your doctor. Do not give KASTIPRON TABLET to anyone else, even if they have the same condition as you.

- Things to be careful of

Driving and using machines

This medicine may affect your ability to drive or use machines. If the tablets make you feel sick, dizzy or tired, or give you a headache, do not drive or use machines and contact your doctor immediately.

Side effects

Nausea, headache, gastrointestinal discomfort, diarrhea, gastrointestinal bleeding and skin rash.

KASTIPRON TABLET may cause severe allergy and serious skin reactions. Stop using KASTIPRON TABLET and seek medical assistance immediately if you experience any of the following symptoms:

- Severe allergy: breathing difficulties, light headedness, skin swellings or rash.
- Severe skin reaction: skin reddening, blisters, rash, fever, sore throat or eye irritation.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npa.gov.my [Consumers→Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of KASTIPRON TABLET

- Storage

Store below 30°C, protect from light & moisture. Keep in a tight container.

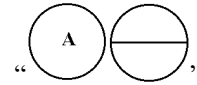

- Disposal

KASTIPRON TABLET should be disposed when your doctor or pharmacist tells you to stop taking this tablet or it has passed the expiry date. Ask your pharmacist how to dispose medicines that are no longer required.
