What Shine Hepavite Forte Capsule is used for

Shine Hepavite Forte Capsule is used as a supportive treatment to help improve liver health, especially in conditions like long-term liver problems, liver scarring (cirrhosis), fatty liver, or when the liver is affected by harmful substances (e.g. toxins, alcohol or certain medicines).

How Shine Hepavite Forte Capsule works

Silymarin helps protect and repair liver cells and supports the liver's natural detox function, while the B vitamins (B1, B2, B3, B5 and B6) help the body produce energy and assist the liver in processing fats, proteins and harmful substances. Together, they support overall liver function, especially when the liver is under stress or affected by disease or toxins.

Before you use Shine Hepavite Forte Capsule

- When you must not use it

Do not take this medicine if:

- you are allergic to silymarin, B vitamins (B1, B2, B3, B5 and B6) or any other ingredients of this medicine (listed in Product Description).

- Before you start to use it

Tell your doctor or pharmacist if you have any other health related problems.

Check with your doctor or pharmacist before taking this medicine.

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Shine Hepavite Forte Capsule

- How much to use

1 capsule, 3 times daily depending on the severity of the case.

- When to use it

Shine Hepavite Forte Capsule should be taken according to the time advised by your doctor or pharmacist, preferably with meals.

- How long to use it

Shine Hepavite Forte Capsule should be taken as your doctor advised you to do so.

- If you forget to use it

If you miss a dose of Shine Hepavite Forte Capsule and you are taking it regularly, take it as soon as possible. If it is approaching time for the next dose, do not double the dose to make up for the forgotten dose, unless advised by your health care provider. Do not take 2 doses at once.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using Shine Hepavite Forte Capsule

- Things you must do

Use your medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating you that you are using Shine Hepavite Forte Capsule.

Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

Do not stop using the medicine unless advised by your doctor.

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give Shine Hepavite Forte Capsule to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

Do not take more than the recommended dosage.

Side effects

Like all medicines, Shine Hepavite Forte Capsule can cause side effects, although not everybody gets them.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of Shine Hepavite Forte Capsule

- Storage

Store below 30°C, protect from light & moisture.

- Disposal

Shine Hepavite Forte Capsule should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
