What OroThymol is used for

As a mouthwash or gargle for oral hygiene and to soothe sore throat.

How OroThymol works

Thymol is an antiseptic with antibacterial and antifungal activity.

Before you use OroThymol

-When you must not use it

It should not be used in individuals known to be hypersensitive to the ingredients.

-Before you start to use it

Do not swallow. Avoid use in patients with large mouth ulcer.

Pregnancy and lactation

No adverse problems have been reported. As with all medicines, it should only be used under medical supervision in pregnant women or nursing mothers.

-Using other medicines

Inform your doctor or pharmacist before using this medicines, including any that you get without a prescription from your pharmacy, supermarket or health food shop.

Some medicines and OroThymol may interfere with each other. They may be affected by OroThymol or may affect how well it works.

How to use OroThymol

-How much to use

Always use OroThymol exactly as your doctor has prescribed. You should check with your doctor or pharmacist if in doubt.

The usual dose:

Adult:

Dilute by adding one part of the solution with three parts of warm water before use. It can be used 3-4 times daily.

Do not swallow.

Discard any unused diluted solution.

Children under 12 years of age:

Consult a dentist or doctor.

-When to use it

Use as directed by your doctor, dentist or pharmacist.

-How long to use it

Continue using OroThymol as your doctor recommended. If symptoms persist, consult your doctor.

-If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Take the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have used too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

Treatment measures include gastric lavage with intensive symptomatic supportive therapy.

While you are using OroThymol

Things you must do

- Inform your doctor or pharmacist if symptoms persist after using this medication.
- Take your medicine exactly as your doctor has told you.
- Tell all the doctors, dentists and pharmacists treating you that you are using OroThymol
- Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

- Do not take more than the recommended dose unless your pharmacist or doctor tells you.
- Do not take any new medicines without consulting your doctor.
- Do not give OroThymol to anyone else, even if they have the same symptoms or condition as you.

-Things to be careful of

Do not swallow. Prolonged use should be avoided.

Side effects

Like all medicines, OroThymol can cause side effects, although not everybody gets them.

If symptoms persist, do not take the medicine and refer to the doctor.

Tell your doctor if you notice any of the following side effects or notice any other effects not listed:

- irritant to the gastric mucosa
- rashes

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and disposal of OroThymol

Storage

Store below 30°C. Protect from light.

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
