What WINA Oral Liquid Paraffin is used for

For the temporary relief of constipation.

How WINA Oral Liquid Paraffin works

WINA Oral Liquid Paraffin contains liquid paraffin which acts as a lubricant and penetrates and softens the stools.

Before you use WINA Oral Liquid Paraffin

-When you must not use it

- It should not be used in children under 3 years of age.
- Liquid Paraffin should not be used when abdominal pain, nausea, or vomiting is present.

-Before you start to use it

Pregnancy and lactation

Not recommended for use in pregnant women.

-Taking other medicines

Inform your doctor or pharmacist before taking this medicines, including any that you get without a prescription from your pharmacy, supermarket or health food shop.

Some medicines and WINA Oral Liquid Paraffin may interfere with each other. They may be affected by WINA Oral Liquid Paraffin or may affect how well it works.

There may be interference with the absorption of fat soluble vitamins.

How to use WINA Oral Liquid Paraffin

-How much to use

Always use WINA Oral Liquid Paraffin **e**xactly as your doctor has prescribed. You should check with your doctor or pharmacist if in doubt.

The usual dose:

Adults including the elderly: 10 to 30ml when required.

Children over 3 years: 5 to 20ml when required.

Children under 3 years: not recommended

-When to use it

Use as directed by your doctor or pharmacist.

-How long to use it

Continue taking WINA Oral Liquid Paraffin as your doctor recommended. If symptoms persist, consult your doctor.

-If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Take the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

If large doses are ingested withdraw medication. Supportive treatment may be required.

While you are using WINA Oral Liquid Paraffin

Things you must do

- Inform your doctor or pharmacist is symptoms persist after taking this medication.
- Take your medicine exactly as your doctor has told you.
- Tell all the doctors, dentists and pharmacists treating you that you are taking Wina Liquid Paraffin
- Tell your doctor immediately if you become pregnant while taking this medication.

- Things you must not do

- Do not take more than the recommended dose unless your pharmacist or doctor tells you.
- Do not take any new medicines without consulting your doctor.
- Do not give WINA Oral Liquid Paraffin to anyone else, even if they have the same symptoms or condition as you.

-Things to be careful of

Caution is required in individual with swallowing difficulty.

Side effects

Like all medicines, WINA Oral Liquid Paraffin can cause side effects, although not everybody gets them.

If symptoms persist, do not take the medicine and refer to the doctor.

Tell your doctor if you notice any of the following side effects or notice any other effects not listed:

- anal irritation after prolonged use
- chronic inflammation
- Accidently breathing in liquid paraffin may cause congestion of the lungs

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and disposal of WINA Oral Liquid Paraffin

Storage

Store below 30°C. Protect from light.

Keep medicine out of reach of children.

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These

measures will help to protect the environment.
