

10 mg in 10 ml

Glyceryl Trinitrate-hameln
1 mg/ml Injection

1 ampoule containing 10 ml.
10 ml solution contains 10 mg glyceryl trinitrate.
For i.v. infusion. **Do not store above 30°C. Do not freeze.**

Opened ampoules and vials: The product should be used immediately after opening the container. Any unused solution from opened containers should be discarded.
Prepared infusion solutions: Chemical and physical in-use stability has been demonstrated in glucose solution 5% and sodium chloride solution 0.9% for 24 hours at 25°C.
From a microbiological point of view, the product should be used immediately.
If not used immediately, in-use storage times and conditions prior to use are the responsibility of the user and would normally not be longer than 24 hours at 2°C to 8°C, unless dilution has taken place in controlled and validated aseptic conditions.

Keep of reach of children! *Jauhi daripada kanak-kanak!*
