

105x45x116

Glyceryl Trinitrate-hameln 1 mg/ml Injection

1 ml solution for infusion contains:
Active ingredient: 1 mg glyceryl trinitrate
Excipients: water for injections, glucose monohydrate, hydrochloric acid

Do not store above 30°C. Do not freeze.

Keep the ampoules in the outer carton in order to protect from light.

Opened ampoules and vials:

The product should be used immediately after opening the container. Any unused solution from opened containers should be discarded.

Chemical and physical in-use stability has been demonstrated in glucose solution 5% and sodium chloride solution 0.9% for 24 hours at 25°C. From a microbiological point of view, the product should be used immediately if not used immediately, in-use storage times and conditions prior to use are the responsibility of the user and would normally not be longer than 24 hours at 2°C, unless dilution has taken place in controlled and validated aseptic conditions.

Keep out of the reach and sight of children!
Jauhi daripada kanak-kanak!

To be used only as directed by a physician.
