What VESSEL DUE F 250 LSU CAPSULE is used for
VESSEL DUE F 250 LSU CAPSULE is used for vascular pathologies with thrombotic risk.

How VESSEL DUE F 250 LSU CAPSULE works
VESSEL DUE F 250 LSU CAPSULE contains sulodexide, a substance which can avoid the formation of thrombus (blood clots) within the arteries and veins. The antithrombotic activity of sulodexide is due to the inhibition of some coagulation factors, especially activated factor X as well as platelet aggregation and by the activation of circulatory and wall fibrinolytic system. Sulodexide also thins the blood and can help to normalize the level of lipids in the blood.

Before you use VESSEL DUE F 250 LSU CAPSULE

- When you must not use it
Do not take VESSEL DUE F 250 LSU CAPSULE
 - If you are allergic (hypersensitive) to sulodexide or any of the other ingredients of

VESSEL DUE F 250 LSU CAPSULE or heparin or heparin-like medicines.

- If you have hemorrhagic diseases or hemorrhagic diathesis.
- Before you start to use it
Given the low toxicity of the substance, there are no particular precautions for use. However, when treatment with anticoagulants is under way, haemocoagulative parameters should be monitored periodically.
- Taking other medicines
As sulodexide is a heparin-like molecule, it may increase the anticoagulant effects of heparin itself and of oral anticoagulants if administered at the same time.
Please ask your doctor or pharmacist for advice before taking any medicine and tell them if you are taking or have recently taken any other medicines, including medicines obtained without a prescription.

How to use VESSEL DUE F 250 LSU CAPSULE

- How much to use
Capsules: 1 capsule twice a day, far from meals
- When to use it
VESSEL DUE F 250 LSU CAPSULE should be taken far from meals.
- How long to use it
