## What NeuroAid II is used for

Traditionally used for general health maintenance and strengthening the body.

## How NeuroAid II works

Not applicable.

## Before you take NeuroAid II

*When you must not take it*

If you are pregnant or breastfeeding.

*Before you start to take it*

Please consult your pharmacist/ doctor before taking this product.

*Taking other medicines*

Tell your doctor or pharmacist if you are taking, have recently taken or might take any other medicines

## How to take NeuroAid II

*How much to take*

Two capsules each time, three times a day. For adults use only.

*When to take it*

NeuroAid II can be taken either before or after meal.

*How long to take it*

Continue taking as your doctor recommended.

*If you forget to take it*

Do not take a double dose to make up for a forgotten dose.

*If you use too much (overdose)*

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

## While you are taking it

*Things you must do*

You must strictly comply with your doctor's prescription or your pharmacist's advice.

*Things you must not do*

- Do not take any new medicines without consulting your doctor or pharmacist.
- Do not give this medicine to anyone else.

*Things to be careful of*

Not applicable.

## Side effects

There are generally no reported side effects with NeuroAid II. However, visit the doctor or pharmacist, if you experience any side effects after taking this medicine.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website [npra.gov.my](http://npra.gov.my) [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

## Storage and Disposal of NeuroAid II

*Storage*

To be stored in a dry place at a temperature not exceeding 30°C. Protect from light and moisture. Keep medicine out of reach of children.

*Disposal*

Medicines should not be disposed of via wastewater or household waste. Ask your doctor or pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.

Do not use this medicine after the expiry date stated on the label.
