

PACKAGE INSERT

Safety

Non-clinical toxicological and pharmacological studies indicate that palm Tocotrienols are safe even when consumed at doses as high as 2500mg/kg body weight. No adverse effect has been reported.

Directions:

Adults: 1 to 2 soft gelatin capsules once a day before or after meals, or as directed by healthcare professionals.

As a health supplement.

Packing

Soft gelatin capsule x 30's, 60's

Storage

Store below 30°C.
Protect from light and moisture.

Each capsule contains
Mixed Tocotrienols 50mg

Preservative:

Methyl 4-hydroxybenzoate 1.23 mg / capsule
Propyl 4-hydroxybenzoate 0.45 mg / capsule

FOR EXPORT ONLY

Product Registration Holder /

Manufacturer by:

HOVID Bhd.,

121, Jalan Tunku Abdul Rahman
(Jalan Kuala Kangsar),
30010 Ipoh, Perak, Malaysia.

MIXED
TOCOTRIENOLS
SupraBio™
Soft Gelatin Capsule

With the **new bio-optimum absorption system**, the contents of the soft gelatin capsule forms emulsion instantly upon contact with the fluid in our stomach. Therefore its absorption no longer depends on food and fat intake. Not only does this increase the absorption of T3s by **200% to 300%**, but a more consistent and complete absorption is ensured.

Tocotrienols (T3) in MIXED
TOCOTRIENOLS *SupraBio™*

are important as they protect the body cells from damages by being a substitute target for free radicals. Free radicals are very reactive. They attack healthy cells. We are most often subjected to free

radicals from air pollution, cigarette smoke, UV radiation, fried and burnt food and from food contaminants like pesticides. Tocotrienols are mostly extracted in their natural form from palm oil and rice bran oil.
