What Dyna Tolnaftate Cream is used for

Indicated for the treatment of tinea infections including jock itch, athlete's foot, ringworm of the hands and other parts of the skin..

How Dyna Tolnaftate Cream works

Tolnaftate is an antifungal agent used topically for the treatment of ringworm infections.

For nail beds or hair follicles fungal infection it may be applied concomitantly with an oral antifungal agent.

Before you use Dyna Tolnaftate Cream

- When you must not use it

Pregnancy and lactation

Not recommended for nail or scalp infections. Ask your doctor or pharmacists for advice before using Dyna Tolnaftate Cream.

- Before you start to use it

Tell your doctor if you have any sensitivity to Tolnaftate or other ingredients.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Dyna Tolnaftate Cream

- How much to use

Apply to the affected part twice daily.

The directions given may differ from the information contained in this leaflet.

If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

- When to use it

Use as directed by your doctor or pharmacist.

- How long to use it

Apply for 2 to 3 weeks. Continue taking Dyna Tolnaftate Cream for as long as your doctor recommends.

- If you forget to use it

Take the missed dose as soon as you remember. If it almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

Take your medicine exactly as your doctor has told you.

Tell the doctor, dentist and pharmacist treating you that you are taking Dyna Tolnaftate Cream.

- Things you must not do

Do not take any new medicines without consulting your doctor or pharmacist.

Do not give Dyna Tolnaftate Cream to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of
