What Minyak Angin Cap Tupai is used for

For relief of common cold, stuffy nose, giddiness, headache, sprain, insect bites and itch.

How Minyak Angin Cap Tupai work

When massaged gently on the skin, it gives a sensation of warmth and relief. It also helps in giving clear and easy breathing.

Before you use Minyak Angin Cap Tupai

-When you must not use it

Individuals with known or suspected intolerance to any ingredients of the medicated oil. Contraindicated to infants below 2 years of age. Do not apply this medicated oil if you have wounds or damaged skin.

-Before you start to use it

Apply a small amount to test on skin first before administering full dose if unsure of allergies.

-Taking other medicines

For patients taking warfarin, excessive application may increase chances of bleeding. Tell your doctor or pharmacist if you are taking any other medicine.

How to use Minyak Angin Cap Tupai

-How much to use

Apply a few drops on the affected area.

-When to use it

Use when you are suffering from common cold, stuffy nose, giddiness, headache, sprain, insect bites and itch.

-How long or often to use it

Can be used on any time when required with frequency of 3-4 times per day.

-If you forgot to use it

Use the medicated oil soonest as you remember to reduce your discomfort.

-If you use too much (overdose)

When used externally, overdosing is unlikely. If you think you or anyone may have used too much of this medicated oil or accidental ingestion occurs, consult a doctor immediately or go to the nearest Hospital Emergency Department.

While you are using Minyak Angin Cap Tupai

-Things you must do

If you are about to start using any other new medicine, tell your doctor or pharmacist that you are using Minyak Angin Cap Tupai.

-Things you must not do

Contraindicated to infants below 2 years of age. Do not apply on wounds or damaged skin. Avoid contact with eyes and open wound.

-Things must be careful of

For external use only
Caution must be exercised when older children are treated. Keep out reach of children. Seek professional advice if ingested by accident. Do not place into nostrils of children as it may cause convulsion. This product contains camphor and as such, can cause Convulsion. This product contains methyl salicylate and when applied or rub on the skin, can be absorbed through the skin into blood.

Side Effects

You may experience skin irritation or sensitization.

You may experience skin irritation or sensitization. You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website nptra.gov.my [Consumer -> Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and Disposal of Minyak Angin Cap Tupai

-Storage

Keep in a dry place below 30°C.

-Disposal

Ask your pharmacist for advice on how to dispose of medicines no longer in use.
