

**Security Notes:**

The unit-cartons will utilise a security seal on the top flap. The bottom of the carton is an interlock design so that when full, no tampering is practical without visible damage to the carton. The top flap seal has permanent adhesive and imprinted with the word 'void' so that when removed there is damage to the carton surface with the word 'void' showing. Each unit-carton also has a unique combination of GTIN, batch, expiry and serial number.

**Other Notes:**

DataMatrix symbology must be GS1-specification compliant.

- |  |         |  |                                      |
|--|---------|--|--------------------------------------|
|  | Cyan    |  | Dieline / Knifeline PMS Rubine Red C |
|  | Magenta |  | Crease PMS Green C                   |
|  | Yellow  |  | Coating Free Area PMS Orange 021C    |
|  | Black   |  | Artwork Notes PMS2935C               |

GTIN and variable data is generated and printed at the time of packaging. The DataMatrix in the artwork is only a sample and should not be printed.
