What Goldfish Medicated Oil is used for

This product is used for relief of headache, blocked nose, muscle and joint pains caused by flu and to relief skin itchiness caused by insect and mosquito bites.

How Goldfish Medicated Oil works

Goldfish Medicated Oil contains camphor, methyl salicylate and menthol.

Camphor stimulates nerve ending that relieve symptoms such as pain. Menthol and methyl salicylate are used topically as a counter-irritant. It works by causing the skin to feel cool and then warm that reduces the pain.

Before you use Goldfish Medicated Oil

- When you must not use it

Do not use Goldfish Medicated Oil:

- if you are hypersensitive to methyl salicylate, menthol, camphor or any other ingredients of this medicines (listed in Product Description)
- in infants under 2 years of age.

- Before you start use it

This product can cause convulsion. Caution must be exercised when older children are treated. It is dangerous to place any camphor containing product into nostril of children. A small amount applied this way may cause immediate collapse.

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

Tell your doctor if you are taking warfarin (anticoagulant medicine). This product contains methyl salicylate and can absorbed through the skin into the blood. Excessive use in individuals taking warfarin may cause bleeding.

How to use Goldfish Medicated Oil

- How much to use

Apply and massage gently on to the affected areas.

Follow all directions given to you by your doctor and pharmacist carefully. They may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

- When to use it

Use three to four times daily or as directed by your doctor or pharmacist.

- How long to use it

Use Goldfish Medicated Oil for the duration that the doctor recommends.

- If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have use too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

Use your medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating you that you are taking Goldfish Medicated Oil.

Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

Do not stop using the medicine unless advised by your doctor.

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give Goldfish Medicated Oil to anyone else, even if they have the

same symptoms or condition as you.

- Things to be careful of

Avoid product contact with the eyes, mucous membrane or open wound

This product is for external use only and not to be taken orally.

Side effects

May cause skin irritation.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring visiting the website nptra.gov.my [Consumers→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and Disposal of Goldfish Medicated Oil

- Storage

Keep out of the reach and sight of children.

Store below 30 °C in a cool dry place

Do not use this product after the expiry date.

- Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
