What SaferCare is used for

SaferCare is for hygiene and antiseptic purpose.

How SaferCare works

Chlorhexidine digluconate is a cationic biguanide that can exert their lethal effect upon bacterial cells through non-specific interaction with acidic phospholipids of the cell membranes while isopropyl alcohol is rapidly bactericidal and fast acting broad spectrum antiseptic but is not considered persistent. Its mechanism of action appears to be denaturation of proteins.

Before you use SaferCare

- When you must not use it

Do not use it if you are allergic to any ingredients of this SaferCare.

- Before you start to use it

SaferCare contains chlorhexidine. Inform your healthcare provider if you have a known allergy to chlorhexidine.

Stop using this product and seek immediate medical assistance if you experience rash, itching, swelling, breathing difficulties, light headedness or rapid heartbeat.

- Taking other medicines

Alcohol should not be brought into contact with some vaccines and skin test injections (patch tests). If in doubt, consult the vaccine manufacturer's literature.

How to use SaferCare

- How much to use

Apply an adequate amount to the palm. Spread and rub over back of hands and fingertips until dry.

For external use only.

- When to use it

Please follow the advice of the doctor or pharmacist.

- How long to use it

Please follow the advice of the doctor or pharmacist.

- If you forget to use it

Continue to use it as directed by your doctor or on the package label.

- If you use too much (overdose)

There are no reports of this occurring and the nature of the product make it unlikely.

While you are using SaferCare

- Things you must do

Inform your doctor or pharmacist of all the medications you are taking.

- Things you must not do

Do not take any new medicines without consulting your doctor.

- Things to be careful of

Ask your health care provider any question you may have about how to use SaferCare.

Side effects

Immune system disorders.

Frequency not known: Hypersensitivity including anaphylactic shock.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring or visiting the website nptra.moh.gov.my [Public → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of SaferCare

- Storage

Store below 30°C, away from heat, flame and direct sunlight. Keep out of reach of children.

- Disposal

Medicines should not be disposed of via wastewater or household waste.

Ask your pharmacist how to dispose of medicines no longer required. These

measures will help to protect the environment.

Product Description

- What it looks like

Clear colourless solution with flora and alcohol odour.

- Ingredients

- Active ingredients
Chlorhexidine Gluconate Solution, isopropyl alcohol

- Inactive ingredients
Glycerin, fragrance, purified water

- MAL number:

MALXXXXXX
