

URINEX

Soft Gelatin Capsules (S.G.Caps)
(Enteric coated)

For Renal and
Urinary Disorders
and Urolithiasis

Composition:

Each **URINEX S.G.Capsule** contains:

Pinene ($\alpha+\beta$)	31 mg
Camphene	15 mg
Borneol	10 mg
Fenchone	4 mg
Anethole	4 mg
Cineole	3 mg

Properties:

URINEX is a well tolerated combination of pure natural ingredients that provide marked subjective improvement in painful renal disorders and urinary stones. **URINEX** is eliminated from the body in the urine as glucuronides which stabilize urinary colloids, increase calcium salt solubility and help breakdown of urinary stones. **URINEX** also increases renal blood flow resulting in increased urine excretion which helps flush stones from urinary passages. The hyperemic effect on renal mucous membranes reduces the pain associated with inflammation. In addition, the antispasmodic effect of **URINEX** via its action on urinary smooth muscles facilitates the elimination of stones and reduces the spasm which causes renal and ureteric colic.

Indications:

- Renal and urinary disorders.
- Painful spasms and inflammation of the urinary tract associated with urolithiasis.
- For dissolution and expulsion of urinary tract stones.

Dosage:

One capsule 3 - 4 times daily half an hour before meals, or as directed by the physician.

Contraindications:

Hypersensitivity to any component of the drug.

Precautions:

In case of acute or severe urinary tract infections, urine culture and sensitivity tests must be carried out and the specific antimicrobial agent must be given.

Side effects:

URINEX is safe and well tolerated with no side effects.

Pregnancy and lactation:

No adequate studies are reported; it is advisable to use the drug during pregnancy and lactation as recommended by the physician.

Drug interactions:

None reported

Interference with laboratory tests:

None reported.

Overdosage and treatment:

Accidental ingestion of high doses of the drug causes gastrointestinal disturbance. Treatment is symptomatic.

Packing:

A box containing 24 **URINEX** Soft Gelatin Capsules (Enteric-Coated).

Storage:

Keep at room temperature (15 - 30°C) away from moisture.
Keep out of the reach of children.
